

## **Site Council Meeting Minutes January 24, 2017**

Site Council members in attendance: Londa Rochholz, Kate Wagoner, Kathy Young, Leslie Wonn, Ericka Thessen, and Delilah Montes.

School choice week is currently happening within the district. McCornack is closed to new out of district transfers due to our large class sizes. This will not affect students already enrolled at our schools. McCornack is expected to be at 365 students for next year. Londa Rochholz and Sarah Pettigrew attended the school choice showcase on Saturday and many attendees were interested in the immersion schools. The new Mandarin immersion school program will open in the fall in the Churchill region and Londa is watching to see how that may affect our enrollment.

Our next Title 1 night will be held on Tuesday, March 7 from 6:30-8:00pm. It will focus on math, science, engineering and technology (STEM). It will be a fun evening focusing on community building and fun activities around these focus areas. We may have these activities in the gym and library. Some ideas focused on inviting students from the region's robotics clubs, Churchill's STEM program, Molecular Probes and possibly the astronomy club.

Discussion followed about equity and diversity with our human dignity creed and assembly on February 22. Londa will work with the fifth grade leadership team to help organize the assembly. We would like the focus to be throughout the whole month of February with classroom activities, books and writing activities. This would be an opportunity to introduce our mission statement.

Site Council reviewed the parent student handbook for updates and changes. Our next Site Council meeting will be held on Tuesday, February 28 from 2:30-3:30pm.
